

HOW WE MAKE A DIFFERENCE

*More Than Transportation.
A Meaningful Impact on Recovery.*

Rider feedback shows that Danny's Ride does more than provide transportation. It helps people:

Stay engaged in recovery by getting to treatment, counseling and recovery support services.

Reduce stress and gain peace of mind by knowing they have reliable transportation.

Improve their health and well-being by accessing essential medical care.

Rebuild their lives through employment, family connections and meeting legal obligations.

IN THEIR OWN WORDS

"Before Danny's Ride I couldn't get to my program or clinic, so I kept relapsing. With Danny's Ride I could make my appointments so I wouldn't relapse."

"Because of Danny's Ride, I was able to get a job, make it to and from work, get to court and go to meetings to help support my recovery."

More than 100,000 rides provided since 2021

MORE ABOUT DANNY'S RIDE

OUR STORY

Danny's Ride was founded in 2020 by Nancy Knoebel in memory of her son, Danny Teichman, who died in 2016 just one week before his 28th birthday.

Danny understood how important connection and support are in recovery. He was known as a "ride giver," helping friends and others in the recovery community get where they needed to go.

Danny's Ride carries that spirit forward by making sure transportation does not stand between someone and the services and opportunities that support recovery.

WHY TRANSPORTATION MATTERS

For people impacted by substance use disorder, lack of reliable transportation can mean missed treatment, healthcare, recovery meetings, employment and other critical services.

Danny's Ride removes that barrier.

WHERE OUR RIDERS GO

Outpatient
Treatment

Medication-Assisted
Treatment

Healthcare

Employment

AA and NA Meetings

Housing

Legal Services
(and more)

**From treatment and recovery
meetings to employment,
healthcare, and other
essential services.**

OUR MISSION

To honor Danny's legacy of compassion and generosity by providing rides to services and opportunities that support recovery for people impacted by substance use disorder.

HOW IT WORKS

Danny's Ride partners with treatment providers, recovery organizations and a wide range of community-based agencies to arrange transportation for people impacted by substance use disorder.

Partner staff arrange the rides. Riders are picked up where they are and connected to the services and opportunities that support their recovery.

A PROVEN MODEL FOR CONNECTING PEOPLE TO RECOVERY

RELIABLE TRANSPORTATION

Danny's Ride coordinates rides through established rideshare services, including Uber and Lyft, providing dependable transportation to recovery-supporting destinations.

MORE THAN A RIDE

Our model combines efficient transportation management with data tracking, financial accountability and transparent reporting. Partners gain valuable insight into how transportation dollars are spent, whom they serve and the impact they make.

MANAGED BY TRUSTED PARTNERS

Partner staff arrange rides for their clients and determine appropriate destinations.

FLEXIBLE AND RESPONSIVE

The rideshare model allows transportation to be provided when and where it is needed — 24/7 — without operating a fleet of vehicles.

SUPPORTED BY THE COMMUNITY

Most rides are funded through partnerships with counties and community organizations, with additional support from grants, corporate partners and individual donors.
